

## Center for Integrated Neuromodulation: TMS Pricing

TMS patients are required to have an initial new patient consultation with Dr. Burke if not already established in our office. This visit can be billed to your insurance and is subject to your usual specialty copay.

TMS services are available on a cash / credit pay basis. Services are not billable to insurance at this time. Treatment is available for chronic and / or neuropathic pain only.

You may pay per session or pay in advance for the complete treatment cycle. Complete pre-payment of a treatment cycle offers a discounted rate over pay-per-session.

Treatment For	Session Length	Frequency	Length of Cycle	Cost per Session	Total if Paid Per Session	Total If Pre-Paid
Fibromyalgia	45 minutes	5 x week	6 weeks	\$200	\$6,000	\$5,400
Neuropathic Pain	45 minutes	5 x week	6 weeks	\$200	\$6,000	\$5,400
Migraine Prevention	25 minutes	5 x week	3 weeks	\$120	\$1,800	\$1,620
